

Mobile App and Website Developer (iOS/Android/Web)

We are seeking experienced developers or a small development team to build our new brand's app and website. The project will be a platform where users can organize and join indoor sports activities. The main focus is the development of a mobile app (iOS and Android), along with a website that complements the app and provides an admin panel.

Key Responsibilities:

- Develop a cross-platform mobile application (iOS and Android) with all required functionalities, including user sign-up, booking, payments (integrating Stripe), calendar management, chat system, notifications and other key functionalities.
- Create a responsive website that includes information about the project, links to download the mobile app, and an admin portal.
- Build an admin portal for internal use, where we can manage users, bookings, billing, and more.
- Develop a partner dashboard for businesses that allows them to manage calendars, billings and other key functionalities.
- Ensure the security of user data, including safe card details storage and SMS/email verification.
- Work closely with the UI/UX designer to ensure the designs are implemented seamlessly.

Requirements:

- Proven experience in developing cross-platform mobile applications for iOS and Android.
- Expertise in web development with proficiency in frameworks like React, Angular, or Vue.js for front-end and Node.js, Ruby on Rails, or Django for back-end.
- Experience with database management (MySQL, PostgreSQL, or similar).
- Experience integrating payment systems like Stripe.
- Familiarity with admin and partner management portals.
- Experience with calendar integration and booking systems.
- Knowledge of implementing secure payment processing and data protection protocols.
- Ability to work under NDA and maintain confidentiality.

Preferred:

- Experience with sports-related or event-management apps is a plus.
- Familiarity with building platforms in multilingual environments.

This is a contract-based role with the possibility of full-time employment.
